Who are you helping?

Eating disorders are not a whim or a choice. They are illnesses that people can recover from - but no one should have to go through recovery alone.

We are Chuť žiť,

a specialised non-profit centre providing professional support to people with eating disorders and their loved ones. Every year, we support more than 2,000 young people on their journey to recovery.

Thanks to your purchase, we can continue helping others.

Thank you.
